

Save The Date!

"How Space Drives Innovation and Economic Development"

May 30, 2018 from 4pm to 6pm (Aula 1)

Aerospace Engineering Faculty of University of Rome "La Sapienza"
Via Eudossiana 18, Rome (Italy)

The detailed agenda will follow soon!

Special Guest: Dr. Danielle Wood

Media Arts and Sciences

MIT Media Lab

Dr. Wood leads the **Space Enabled Research Group** seeking to advance justice in Earth's complex systems using designs enabled by space. Dr. Wood is a scholar of societal development with a background that includes satellite design, earth science applications, systems engineering, and technology policy for the US and emerging nations. In her research, Dr. Wood designs innovative systems that harness space technology addressing development challenges worldwide. Wood's research also develops systems analysis tools improving decision making during complex systems design. Most recently, Dr. Wood worked as the Applied Sciences Manager within the Earth Science Division of Goddard Space Flight Center.
