

DATE: **Wednesday**
3 May 2017

TIME: **4.30pm – 6.15pm**

Women in Aerospace Event Harwell Campus

The recently launched 'Women in Aerospace – UK' group is hosting an event on the Harwell campus to bring together women, and men who are interesting in supporting and getting involved in a more diverse and equal workforce within the space sector. The group is initially focussing on three areas:

- De-mystifying unconscious bias**
- Networking/mentoring**
- Creation of a network of experts**

To find out more, come along and join us at the Satellite Applications Catapult, on Wednesday 3 May, @4.30pm where you will hear from senior women working on the campus.

All speakers will be giving a short presentation on their careers and working in our exciting sector.

Along with the short speeches, networking opportunity and refreshments, there will also be a few short tours of the Catapult and RAL Space. To register for the event, please visit: <https://sa.catapult.org.uk/news-events-gallery/events/women-aerospace-event/> or to find out more please contact karen.rogers@sa.catapult.org.uk.

All are welcome – men and women!
